CAREER OBJECTIVE

Dedicated IT professional seeking to apply my experience in IT support, networking, and cybersecurity within a collaborative, mission-driven organization. I aim to keep systems reliable and secure, support colleagues with a service-first mindset, and keep growing alongside regional and global teams.

CAREER SUMMARY

IT professional with 5+ years of industry experience in IT support, network administration, procurement and cybersecurity, including 3.5+ years as IT Officer supporting staff across Bangladesh and South Asia at ARTICLE 19, an international human rights organization. Experienced in Level 1–2 troubleshooting, LAN/Wi-Fi and firewall support, ISP and vendor coordination, backup and disaster recovery readiness, IT asset records, and staff training on IT tools and security protocols. Strong customer-service mindset, clear written and spoken English, and a record of working independently and as part of a regional team. B.Sc. in Computer Science & Engineering.

KEY ACHIEVEMENTS

IT Infrastructure & Support Excellence

- Managed and secured IT infrastructure for a multi-location international NGO (Bangladesh and South Asia), supporting stable operations, data protection, and compliance with global IT practices.
- Delivered day-to-day technical support and troubleshooting to staff, improving overall IT efficiency.
- Conducted training sessions that strengthened staff proficiency in IT tools and cybersecurity protocols.
- Handled end-to-end procurement of all ICT products and services for the organization, including vendor sourcing, coordination and delivery of IT equipment.
- Led rollout of cloud tools and digital collaboration platforms, and maintained backup systems and disaster recovery readiness plans.

JOB EXPERIENCE

IT Officer

Jan 2023 – Jul 2026

ARTICLE 19, Bangladesh and South Asia

- Managed and secured all organizational IT infrastructure systems
- Configured firewalls and monitored internal network traffic flow
- Ensured robust cybersecurity protocols and data protection measures
- Provided real-time technical support to internal users
- Maintained backup systems and disaster recovery readiness plans
- Handled end-to-end procurement of all ICT products and services, including vendor coordination and delivery of IT equipment
- Installed, updated, and managed software and hardware resources
- Led implementation of cloud tools and digital solutions
- Aligned IT operations with global organizational best practices
- Enhanced digital collaboration through modern cloud-based platforms
- Managed user accounts, including password resets and multi-factor authentication (MFA) setup and support, to keep staff access secure.
- Prepared monthly IT reports on system status, incidents, support requests, and security updates for management.
- Tracked leave and absences and shared attendance data with management and HR for payroll and reporting.

Network Engineer
Oct 2021 – Dec 2022

Source Volt Ltd.

- Led the team, assigning tasks and guiding junior members through technical and network issues.
- Supported LAN and Wi-Fi connectivity, including basic troubleshooting of routers, switches and access points.
- Monitored network performance and resolved connectivity issues for users.
- Coordinated with internet service providers and vendors to resolve outages and connectivity faults.
- Prepared and configured network and IT equipment, and kept records of devices and settings.
- Documented network configurations and support procedures.
- Designed and developed responsive, user-friendly web applications.

Junior Software Engineer
Jun 2021 – Sep 2021

InflexionPoint Technologies (BD) Ltd.

LANGUAGES

Bangla · English

PERSONAL INFO

Date of Birth: 14th August 1998

Nationality: Bangladeshi

EXTRA-CURRICULAR ACTIVITIES

School Coordinator
Apr 2014 – Aug 2016

Bangladesh Red Crescent Youth

In April 2014, I joined Bangladesh Red Crescent Youth as a volunteer and actively participated in health awareness programs, first aid services, and community support activities. In January 2015, I was appointed School Coordinator of Monipur High School, where I coordinated volunteer activities, organized training sessions, supervised first aid support during school events, and ensured effective communication between the school unit and the central Red Crescent Youth network.

Volunteer
Jan 2009 – Dec 2013

Bangladesh Red Crescent Youth, Ideal School Unit

Joined Bangladesh Red Crescent Youth, Ideal School Unit, as a volunteer in January 2009. After receiving certified first aid training, I actively provided professional first aid support during school sports days and events. In June 2011, I was appointed Group Leader, where I coordinated volunteer activities and supervised team members. In January 2013, I became the Chief Leader of the Ideal School Unit, leading the unit's operations and ensuring free professional first aid services were available to students and staff.
